

PureVue™ Ceramic

Clearly see the world beyond your windows with the PureVue™ Ceramic Film Series from Solar Gard. Leveraging one of nature's most durable elements, this innovative film line boasts significant heat and glare rejection while still maintaining views.

With low reflectance that enhances the natural appearance of glass, PureVue is also optimally suited for demanding coastal environments.

For nature's clearest views, choose the pure genius of PureVue ceramic technology.

FAST FACTS:

- **Advanced sputtered ceramic technology**
 - Rejects up to 58% of total solar energy, resulting in improved indoor climate control and total comfort
- **Low reflectivity**
 - Preserves views to the outside, while maintaining the natural look of exterior glass
- **Superior durability**
 - Ideal for coastal environments
- **Harmful UV light rejection**
 - Protects interior furnishings and finishes from premature fading and sun damage
- **Comprehensive warranty**
 - Lasting quality guaranteed for 12 years
